

SAGIA

Sagia has always been fascinated with the positive energy of music. She played in the UK, US, Spain, Poland, France, Cyprus, Malta & The Netherlands and at official events during WMC (Miami) & ADE (Amsterdam). She accompanied many of her favourite DJs and producers such as Umek, Oxia, Coyu, Tiger Stripes, Martijn Ten Velden, Sandy Rivera, Shapeshifters or Saytek, to name a few. Her sets were played on Ibiza Global Radio, DJ MAG's site and Fashion TV. She is currently based in London, where she plays in underground clubs like 93 Feet East, Club Aquarium, Rhythm Factory or Sketch.

Sagia's musical style is characterised by instrumentally rich sounds with solid bass line and spatial & energetic vibes of melodic house & techno. Her musical sensitivity and drive translates into her own productions and remixes.

Sagia's debut tech house track 'That's Right' was released by a NYC based label SoundGroove Records on a Miami Music Sampler 2012 during WMC. 'That's Right EP' with additional remixes was released shortly after. In 2013 she released a deep house EP titled 'No Turning Back' on Area Remote with a remix by 2000 And One. The track was also featured on 100% Pure Records' annual 'Miami 2014' compilation. 'Don't Be Afraid' on Sandy Rivera's (aka Kings Of Tomorrow) label Blackwiz Records has been storming the tech house chart on Traxsource in 2017. In the following year she released a track called 'Rewind Time' on London's Repeat After Me Records on a compilation celebrating Sónar in Barcelona. She also released her other tracks and remixes with East Recordings [London], Dual Life Records [L.A.], Lantus Recordings [Spain], RamBunktious [Miami] and DeepWit Records [Denmark].

Her tracks have had support from Anja Schneider, 200 And One, Monika Kruse, Sandy Rivera, Kölsch, Eats Everything, Karotte and more.

She currently hosts a monthly radio show called 'Flight Mode' on Techno.FM & Sine.FM, where she plays fresh music from a range of electronica spectrum, predominantly Melodic House and Techno, Deep and Progressive vibes.
